

DjFusion

We fuse the full-on vibe of a DJ with superior live musicians to give you a new take on the music scene. This combined package is perfect for weddings, parties, social occasions or corporate events. It's ideal for anyone that wants the latest thing, a DJ with extra oomph or the dynamic sound of live music without the price tag of a full live band.

So What Is DjFusion?

DjFusion comprises two options:

- a. Live musicians perform sets as required. This aspect is then followed by a DJ session. Duration and timing of each can be tailored to requirements and budget. Live music is a sophisticated choice for providing atmosphere at drinks receptions or through dinner and for a host of other scenarios, while a DJ is guaranteed to 'up the Auntie' and get everyone on the dance floor!
- b. Live musician/s improvise alongside the DJ. This execution is a new concept that blends the DJ's music directly with that of live musicians. The whole effect is super cool and very now. The look is visually stunning and the sound is exceptional.

NB: Options a. and b. can be tailored to suit or combined, live musicians can perform in static positions and/or strolling with radio mic., depending on the instrumental selection.

DjFusion provides a sophisticated experience with a stylish presentation.
